

Find What You Need in an Instant with a Faster, More Expansive Universal Search Option

You've got all the details of your business relationships organized in Sage ACT!, but you need an easier way to dig into that data. With a new universal search option, you can find that one thing you need in an instant, because search is faster and more expansive than ever.

Example:

Let's say you're looking for the sales proposal prepared for "Yellow Jersey Bikes". Sage ACT! will search your contacts, groups, companies, opportunities, notes, history—even attachments for that term. Further hone your search when you filter by all dates, last 24 hours, last week, and last month. Once your search results are displayed by relevance, simply double-click on the item of interest and you're taken to that particular field or attachment for more detail. And, if it's not what you're looking for, simply use the back button to view the search results page again.

INSTANTLY SEARCH

ATTACHMENTS
COMPANIES
CONTACTS
GROUPS
HISTORY
NOTES
OPPORTUNITIES

- “Great search feature. I had great success finding very hidden items. Seemed to work well and quickly!”*
- “I absolutely love the universal search. I can't tell you how many times I have scrolled through my whole contact list looking for something. I was able to do it with typing one word and two mouse clicks. Thank you Sage ”*
- “Love the Wildcard feature. Search has been working extremely well for me. Actually found some contact errors!”*
