

CRM Hosting Services

Choose the solution that's right for your business.

Act Today can host your Act! CRM database to provide you with a customised cloud solution. Our Act! experts handle all the technical details so you can quickly and easily access all your customer information, manage your activities and track all your communications from a browser on a Mac, PC, tablet, or smartphone. Ongoing, we provide automatic upgrades and nightly backups for a worry-free experience. We can also provide you with additional services such as off-line access of your data and hosting of software such as Microsoft Office ProPlus to give your team full access to everything they need, from where ever they are.

| Services | Shared Server | Dedicated Server |
|------------------------|---|--|
| No. of Users | 1 - 9 Users | 10+ Users |
